

# INSTRUCTIONS FOR USE OF CONSTRUCTION SPECIFICATION

## ANIMAL MORTALITY FACILITY, CODE 316

### 1. Applicability

This specification is applicable for the construction of the animal mortality facility to provide a system that will properly dispose of livestock and poultry carcasses in order to reduce the impacts of odors and to prevent pollution of water and soil resources.

### 2. Items to be included in the "ITEMS OF WORK AND CONSTRUCTION DETAILS" or on the Construction Drawings.

- a. A plan view showing the location and extent of the practice.
- b. Pertinent elevations of the facility.
- c. Location and design requirements of electrical lines, water lines, gas lines, and other required utilities needed for operation of the facility.
- d. Requirements for burial where required.
- e. Quality of materials.
- f. Structural details when concrete or timber is used for the facility foundation.
- g. Number, capacity, and quality of facility(ies).
- h. Location of existing utilities and notification requirements.
- i. Structural details of all components.
- j. Where a roof structure is used to protect the facility, include design data and building dimensions.
- k. Vegetative requirements
- l. Odor management or minimization requirement.
